Personal Profile

I'm Muhammad Rizky, a **Bachelor of Information Technology Engineering** student at **CCITFTUI, Depok, Indonesia**. Proficient in **frontend and backend development**, with a focus on **HTML, CSS, JavaScript, React.js, and Node.js**. Strong in **problem-solving, teamwork, and project management**. Fluent in **English and Indonesian**, with excellent communication and interpersonal skills. Enthusiastically pursuing opportunities in the **tech industry**, particularly in **software engineering, full-stack development, cloud computing, machine learning, IoT development, or mobile development**.

Education

Bachelor's Degree in Information Systems

CCITFTUI| Depok, Indonesia

Graduated: 2024

- Relevant Courses: Web Development, Software Engineering, User Interface Design, Database Systems, IOT Development, Data Analyst, Machine Learning
 - Final Year Project: Developed a web-based library management system using React.js and Firebase, allowing users to manage book inventories, borrowing processes, and view real-time updates.
-

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, PHP, Laravel
 - **Tools & Version Control:** Git, GitHub, npm, Webpack, Chrome DevTools
 - **UI/UX Design:** Figma
 - **Responsive Design:** Expertise in creating mobile-friendly and cross-browser compatible websites
 - **APIs:** Experience in working with RESTful APIs
 - **Testing:** Basic knowledge of unit test
-

Projects

Personal Portfolio Website

- Designed and developed a responsive personal portfolio using **HTML, CSS, and JavaScript** to display web development projects.
- Focused on providing a clean user interface and showcasing various web development skills.

Domation Web Application (Academic Project)

- Built a full-stack e-learning platform using **Laravel** and **Firestore**.
- Integrated user authentication and real-time database for managing dynamic course content.
- Worked with REST APIs to implement CRUD functionalities for course management.

To-Do List App

- Developed a simple and intuitive to-do list application using **JavaScript**, leveraging **local storage** to save tasks between sessions.
- Enhanced user experience with a clean design and responsive layout for mobile and desktop users.

Certifications

- **Responsive Web Design** (freeCodeCamp, 2023)
- **JavaScript Algorithms and Data Structures** (freeCodeCamp, 2022)
- **React - The Complete Guide** (Udemy, 2023)
- **UI/UX – From Zero to Hero** (Udemy2023)
- **Learn Basic Web Programming** (Dicoding2022)
- **Learn Basic JavaScript Programming** (Dicoding2022)
- **Javascript Bootcamp -From beginner to Advanced** (Udemy 2021)
- **Learn to Create Front-End Web for Beginners** (Dicoding2022)
- **Learn React.js by Creating a Split Bill App** (Codepolitan 2023)
- **Creating a Website Landing Page with Bootstrap 4**(Codepolitan2021)

Achievements & Extracurricular Activities

- **Hacktrace Workshop**
Participated in **Hacktrace Workshop 2024**, bug bounty program workshop to find vulnerability in a website with OWASP TOP 10 methodology
- **Web Development Bootcamp**
Completed a 3-month intensive bootcamp focused on frontend web development, covering topics like **JavaScript ES6, React**, and responsive design principles.
- **Komadro**

Languages

- English (Intermediate)
- Indonesian (Native)

Additional Information

- Actively contribute to open-source projects on GitHub.
 - Continuously learning about new frontend technologies, such as **Next.js**, **Nest.js** and **TypeScript**.
-
